

Singapore Medical Journal engages publisher

We are pleased to announce that we have engaged Wolters Kluwer Medknow to publish the *Singapore Medical Journal* from the second half of 2022. Wolters Kluwer Medknow is a leading global publishing services provider. With the support of a publishing house with its dedicated resources, we will have a more streamlined process, and therefore, improve our turnaround time from acceptance to publication. Our journal and website will also be redesigned to have a more modern and unified look, which should lead to a better experience for researchers and readers.

We thank all our authors and readers for their patience thus far. We look forward to your continued support for the *Singapore Medical Journal*.
