

Retraction: A simple, flexible and readily applicable method of boundary construction to prevent leech migration

Shunjie Chua, Mark Pitts, Peter Lemark

Singapore Med J 2015; 56(11): 644; <https://doi.org/10.11622/smedj.2015176>

Following investigation of allegations of professional misconduct, the Singapore Medical Council (SMC) has confirmed that the corresponding author, Chua SJ, had provided fictitious names as co-authors of this paper.

In view of the misrepresentation of authorship claims, the *Singapore Medical Journal* fully retracts this paper from its published record.
